**ABSTRACT OF THE DISCLOSURE
MEDIWATCH**

Mediwatch is an alarm watch that opens to a pill box. The face of the watch is on a hinge with a secure safety closure. There are three to four alarm settings which coincide with the three or four pill compartments inside the base of the watch, thus allowing the wearer to carry a full day's supply of medication. The watch will be available in four styles.

- | | |
|-----------------------|---|
| 1. Wrist Watch | 2. Pocket Watch |
| 3. Neck Watch | 4. Bracelet watch with 2
extra pill compartments |

The alarms will be programed for three settings.

- 1. Ringing or Buzzing**
- 2. Voice Message**
- 3. Vibration – no sound**

The back of the watch will be engraved with important medical information pertaining to the wearer of the watch, thus serving as a Medical Alert Bracelet also.
